GENERAL INFORMATION

COURSE DESCRIPTION

This conference will provide state-of-the-art discussion and instruction on comprehensive evaluation and management of challenging laryngeal-related disorders and corresponding rehabilitation techniques. The meeting will offer a multi-disciplinary approach on a wide variety of voice & swallowing topics, surgical procedures, cancer management, airway issues, techniques for post-surgical swallow rehabilitation, and post laryngectomy voice restoration. Pulmonary medicine, integrative medicine, & palliative care will be addressed from an physician, clinician and research perspective.

We are proud to present a faculty of world-renowned experts in the field of laryngology and voice rehabilitation from across the country. Course format will include evidence-based lectures, interaction with Mayo & Guest faculty members. **New this year – attendees can submit their “complex cases” prior to the course for discussion to “Stump the Panel” of experts.** In addition, attendees are encouraged to **submit a poster presentation.**

WEBCAST AVAILABLE: If you are unable to attend the live-course, you may register for the **live-stream webcast (general session only)**, which will include the option to submit questions to the faculty.

Optional Onsite 1/2-day Workshops (separate registration fee required): Please visit the course website: ce.mayo.edu for a “complete” description of workshops.

- 1. Advanced Laryngectomy Rehabilitation: Hands-on TEP Management**
- 2. Manual Therapy Techniques for Muscle Tension Dysphonia**
- 3. Office-Based Laryngology Procedures: Hands-on Lab**
- 4. Advanced Techniques: Manual Lymphatic Drainage with Compression**

INTENDED AUDIENCE

Physicians/surgeons, Mid-Level health care providers, otolaryngology residents, and Speech & Language Pathologists in the Southwest, across the country, and international (Mexico and Europe) audience. Specialties include: Otorhinolaryngology, internal medicine, speech-language pathology, pulmonary, integrative medicine and radiation/medical oncology.

COURSE LEARNING OBJECTIVES

Upon completion of this course, participants should be able to:

Course Objectives:

- Discuss new surgical strategies for chronic dysphagia refractory to therapy.
- Discuss holistic approaches in rehabilitation of patients not responding to traditional voice therapy.
- Explain surgical approaches for complex airway reconstruction cases.
- Describe manual therapy approaches for chronic muscle tension dysphonia and dysphagia.
- Describe techniques for respiratory training to improve swallowing and voice.
